Additional Information

- Low Level wc can be used where the soil pipe is located in the floor. The pan can be located over the soil pipe by cutting the horizontal flush pipe to length.
- The low level wc uses a specialised low level cistern, connected with a low level flush pipe kit T31 CHR
- The cistern height can be varied by cutting the vertical flush pipe to length - maximum height is 1,075mm to the top of the cistern, minimum height is 900mm.
- Water Inlet valve hole is located on the base of cistern tank on the right hand side
- Bottom inlet valve (SP5A). Back inlet valve available as optional item (SP511).
SP511 : Back entry kit for C3, including back entry inlet valve with flexible hose and plug
- Dual flush cistern fittings with ceramic lever on the right. Press lever down for 6 litre flush and up for 3 litre flush.
- P trap standard height pan - height from floor to pan rim is 40cm. Regal Height pan (floor to pan rim height 48cm) available : P16
- Low level wc must be used with standard Burlington toilet seats. Available in Oak, Mahogany, White and Matt Black (indent item).
- Comes with White ceramic flush lever, also available in Black at an additional cost.
- Supplied with floor fixings.
