Basins

Burlington Bathroom design is governed largely by the washbasin style. Every design is crafted to reflect the specific era in which British sanitary ware rose in fame and was heralded as the best in aesthetic and performance. Burlington's key design themes are represented through Classic, Edwardian, and Victorian eras. Every basin is crafted to the highest quality and is full of character and style with various choices in style, size and other options to suit your own individual tastes and requirements.

CLASSIC

The Classic collection from Burlington is beautifully formed in a grand square model. This collection also features the invisible overflow, and innovative waste technology.

PAGES 04-06

CLOAKROOM

A selection of cloakroom options have been crafted so you can match your chosen style throughout the home. You'll find Edwardian, Victorian and more Classic styled cloakroom basins to achieve a consistent and beautiful look throughout every wash room.

PAGES 12-13

EDWARDIAN

The Edwardian collection is the ultimate in traditional bathrooms with structured corners and angular designs, the feel is unapologetic and proud.

PAGES 08-09

VICTORIAN

A delicate and refined range, the simplicity of this ceramic basin is stunning. Available in a medium (560mm) or large (610mm) and a range of pedestal and tap hole options, the versatility of this style allows you to continue the style throughout your home and brings an air of luxury to every room.

PAGES 10-11

PEDESTAL OPTIONS

Burlington Regal pedestals are 60mm higher than the Standard pedestals. Overall heights (including basin):

	Standard	Regal	Semi
Classic	845mm (P6)	N/A	N/A
Guild	840mm (P1)	N/A	N/A
Victorian	840mm (P1)	900mm (P9)	500mm (P8)
Edwardian	840mm (P1)	900mm (P9)	500mm (P8)

WC's

Burlington WC's come in a range of options, from the more contemporary back-to-wall option, to traditional close-coupled or the impressive low, medium or high-level WC's. All options feature water saving technology, only flushing 6L for a full flush or 3L for a half. These factory settings can be adjusted to 4 ½ L for a full flush or 2 ½ L for a half flush. Pair your WC with a real wood seat to accentuate the classic styling. Unlike many other traditional brands, Burlington offer soft-close options on white, matte black, oak and mahogany seats. For a premium look, select the intricate and ornate brackets, which provide a focal point in your stunning traditional bathroom.

Wall Faced

Baths

The Burlington range of free-standing baths offers beautifully crafted exclusivity in a variety of styles to suit both modern and traditional spaces. Choose from soaking tubs or traditional baths with two feet styles in three colours. Personalise your bath to your individual tastes and bathroom décor with our Custom Colour service. All the baths are made using the highest quality techniques and processes to ensure the finished product will provide many years of blissful bathing. Whichever bath from our extensive range you choose, you are assured of the finest quality.

CUSTOM COLOUR BATHS - Burlington baths are available in a gloss or matte Custom Colour finish. Whether you are looking to match your decor or stand out with a bold and daring colour, Bath Co can match most paint specifier colours.

TSFR - The baths are made from Twinned Skinned Fused Reinforced acrylic. This material is both strong and hard wearing whilst being lightweight making the Burlington bath the perfect option for your bathroom.

WATER CAPACITY - Capacity available for the bath when empty.

DISPLACED CAPACITY WITH PERSON IN IT - Capacity of the bath when person is sitting in the bath.

WEIGHT - The weight of the bath when stood empty.

Ashby

The Ashby bath features a timeless double-ended design with elegant modern fluting and an easy-clean gloss surface. Its classic style complements both traditional and classical interiors, adding a touch of sophistication to any bathroom.

Brassware

Burlington brassware is packed full of innovative technology, not seen amongst other traditional competitors. Every Burlington tap is supplied with a flow straightener for areas with low water pressure and an aerator for areas with high water pressure. This, unlike most traditional taps, ensures your water is delivered at 13 litres per minute regardless of incoming water pressure. So you no longer have to cope with water splashing everywhere, the flow from a Burlington tap is perfect every time.

All bath fillers and bath shower mixers have rotating spouts so you can move the brassware out of the way to enjoy a relaxing bathe. Every bath shower mixer also comes with an 'S' Adjuster, allowing you to position the handset over the bath. You can install your bath shower mixer with or without this feature. All are also available as an angled option, so you see the indices when you walk into the room.

Classical Tapware with Modern Features

Burlington tapware captures the elegance of a bygone era, with none of the hassles that can come with antiques. The balance of traditional style with contemporary materials and modern manufacturing techniques make Burlington taps the ideal solution.

Swivelling Spouts

All our Bath Fillers and Bath Shower Mixer spouts swivel - so you don't have the spout in your way when you shower.

Angled Mixers

All Bath Fillers and Bath Shower mixers are available in an "angled" version.

Contact our team for any product enquiries.

'S' Adjusters

The S adjuster allows the telephone handset to be positioned over the bath - when you are done it drips into the bath. The bath shower mixer can be installed with or without the "S Adjuster".

Finish Options

Burlington brassware is offered in Chrome, with select options also available in ^Gold and ^Brushed Nickel. ^Non-stock items.

Valve Options

All Burlington taps are either with traditional screw-down valves or with quarter-turn valves. The taps work with both low and high pressure. See Burlington's website www.bbwhitebook.co.nz for details.

Quarter Turn is standard with all Kensington tapware

Black Accents

Mix and match our chrome tapware with our black indices and handles. **Only compatible with chrome fixtures.**

Showering

The Burlington range of showers provides extensive options so you can create a showering solution for your own bespoke setting. Whether you prefer showering over a bath or in an enclosure, Burlington has a solution for your own requirements. Thermostatic valves offer safe and controllable showering. Designed using the highest quality materials to achieve yesterday's designs with today's technology.

Features include:

THERMOSTATIC SAFETY / ANTI LIMESCALE · We use Vernet wax capsules throughout our showering valves, meaning temperature when showering will now vary by no more than $\pm 1^{\circ}\text{C}$. The quality materials minimise potential limescale effects enabling extended lifetimes.

CERAMIC DISC TECHNOLOGY · Burlington offers highly durable ceramic disc technology across its showering range.

ONE WAY WATER · Our non-return valves ensure the flow of water in only one direction, ensuring heating efficiency, preventing siphonage of contaminated water and keeping your shower cartridge in excellent condition for longer.

AIRBURST · By combining air and water, the pressure inside the shower head is increased. The power of a traditional shower with up to 33% water saved.

INSTALLATION TIPS

1. All products must be inspected before installation. Bath Co is not liable for removal and installation costs.
2. Before installing, ALWAYS read the accompanying installation notes.
3. Any wall to which a product is fixed must be of suitable construction to support that products weight.
4. To assist with future maintenance, it is strongly recommended that furniture and ceramics be fitted to a tiled surface (rather than butting tiles against an item).
5. The glaze used on Bath Co ceramic products is tough and non-porous. However, it must not be put under undue stress which may cause crazing or other damage:
 - ~ Do not over-tighten the contoured waste – hand-tighten only with the plumbers putty and contoured washer (not supplied).
 - ~ Do not over-tighten tapware during installation
 - ~ Water temperature should not exceed 55°C
 - ~ Do not drop anything onto a glazed surface
6. To avoid damage, tapware and showers MUST have the appropriate inline filters, and water pressure should be no more than 500kPA.
7. To avoid deterioration, it is important that mirrors are kept dry of any moisture, especially along edges. (Refer to instructions for the appropriate cleaning method
8. Cleaning products are to be used as per instructions. Use a moist soft cloth, micro fibre cloth or a diluted mild detergent. Never use products containing acids, bleach or caustic soda. Never use cleaners of a gritty, abrasive nature.
9. Ceramic products are fired in a kiln, then cooled – a process which causes shrinking. Therefore, items may not be perfectly square or flat. Each product is checked to ensure it meets strict tolerances before dispatch.
10. Toilet must be fitted to 100mm soil pipe.

DELIVERY

We aim to despatch all standard orders within five days of receipt of the order. Imported products, timber finishes, paint colours, and other non-standard items may be subject to a longer delivery date. We will keep you informed if this occurs.

FREIGHT

Freight will be charged for orders under \$400.

DISCLAIMER

Bath Co retain the right to change products and specifications without notice. All measurements are in millimetres and are **nominal only**. Restocking and freights costs will be applicable. All made-to-order products are non-returnable. If the goods are faulty, however, we will meet our obligations under the Consumer Guarantees Act.

Rendered images are for conceptual purposes only, may contain discrepancies, and may include products not exclusively from Bath Co.

NON STOCK ITEMS

Products made to order will take longer to manufacture therefore despatch & delivery dates are subject to completion.

TAP HOLES

Kordura tops are not pre-drilled for tap holes – it is the responsibility of the installer to cut these. These hybrid solid surfaces hold solid colour throughout and can be easily cut or drilled with a router, Jigsaw or Holesaw.

SMAIL & COMPANY WARRANTY

General Warranty Statement

Smail & Company Limited (Smail & Co) warrants that in the manufacture of its Bath Co products only high quality workmanship and materials have been used. The following warranty applies to Bath Co products supplied to customers in New Zealand, for use in residential installations only.

Subject to the warranty conditions, in addition to any other right or remedy that the purchaser may have under any relevant consumer protection legislation, Smail & Co undertakes to either repair or replace (at its discretion) any Bath Co product if that product contains a material defect with either materials or workmanship which arose in the course of manufacture.

Residential Warranty

- In relation to the following products bathroom vanities, basins, tops, baths, toilets, showers, tapware a 5-year warranty applies from date of purchase.
- In relation to the following products shower hoses, shower heads, cartridges, mirrors, cistern fittings, wastes, toilet seats, electrical, face plates, washers, valves and shower seals a 1-year warranty applies from date of purchase.
- In relation to the following products in-wall cisterns (excluding items listed above) a 15-year warranty applies from date of purchase.

Commercial Warranty

In relation to any Bath Co products installed in a commercial situation a 12 month warranty applies from the date of purchase. Commercial situations are defined as public washrooms, public buildings, schools, sports centres, gymnasium, hospitals, motels, hotels and retirement villages.

Warranty Conditions

Smail & Cos domestic/residential warranty and commercial warranty is subject to the following conditions:

1. Proof of purchase (such as invoice or receipt) must be provided by the initial purchaser. This warranty is not transferable.
2. All Bath Co installation instructions must have been strictly followed and the product must have been installed in accordance with the relevant New Zealand Building/Plumbing Codes by a certified building or plumbing practitioner (as appropriate for the product).
3. The product must not have been subject to excessive wear and tear. The warranty only covers normal use and typical wear and tear.
4. The product must not have been tampered with or repaired in any way other than in accordance with this warranty.
5. The product must not have been damaged by misuse, accident or neglect, including water damage, sunlight, excessive water temperature, humidity, direct lighting or other adverse environmental conditions.
6. Harsh detergents or abrasive cleaners must not have been used on the product and the product must be cleaned in accordance with the recommended cleaning methods.
7. All warranty covered repair work is to be performed by Smail & Co but Smail & Co shall not be responsible for the cost of removal or installation of the product.
8. Smail & Co shall make the final determination on any issue or uncertainty regarding the application of this warranty.
9. If you acquired the Bath Co product in trade (or some other exception exists under the Consumer Guarantees Act 1993 (the Act) then the Act shall not apply.

If the above conditions are not met, the warranty will be null and void.

Smail & Co shall not be liable to the purchaser for any loss, damage (direct, indirect or consequential), cost or expense incurred by the purchaser (including, without limitation, any damage to other products and/or labour costs incurred in the installation, repair or replacement of the product) other than in accordance with the above warranty, under any relevant consumer protection legislation or as consented in writing by Smail & Co in advance of the cost being incurred.
