2017.

- G1 Personal Hygiene o G1.3.2 VCBC shower trays shall be installed to: facilitate sanitation, avoid harbouring dirt or germs, allow effective cleaning, discharge to a plumbing and drainage system as required by Clause G13 Foul water when water-borne disposal is used, and provide a healthy safe disposal system when non-water-borne disposal is used Sanitary fittings should be easy to locate and identify, with their operation easy to understand and suitable for both standing and seated users.

- G12 For Water supplies G12, the prime building product objective is to ensure that the product used in water supply will not contaminate potable water either by way of material leaching into the water or cross connections and will not leak

Scope of use

VCBC Acrylic free-standing baths are intended for domestic and commercial use. They are designed to enclose water. They can be used with water temperatures up to 55 degrees celsius.

VCBC Acrylic free-standing baths are to be installed using the waste fitting supplied with the bath.

These baths are to be mounted on a flat floor surface and sealed when fitted against a wall or walls.

Conditions of use

VCBC acrylic free-standing baths must be installed in accordance with the instructions provided. We recommend these baths are installed by an authorised installer. Floor surfaces must be flat and free of movement, and unheated.

This product is intended for domestic and commercial use. This product is cleanable and impervious to moisture — cleaning of the bath shall be done in accordance with the manufacturer's cleaning instructions.

Building code performance clauses

All relevant building code performance clauses listed in this document:

B2 Durability

B2.3.1

Building elements must, with only normal maintenance, continue to satisfy the performance requirements of this code for the lesser of the *specified intended life* of the *building*, if stated, or:

- (c) 5 years if:
- i. the *building elements* (including services, linings, renewable protective coatings, and *fixtures*) are easy to access and replace, and
 - ii. failure of those building elements to comply with the *building code* would be easily detected during normal use of the *building*.

F2 Hazardous building materials

F2.3.1

First party self-assessment generated Oct 4, 2023 with BPIR Ready.

The quantities of gas, liquid, radiation or solid particles emitted by materials used in the *construction of buildings*, shall not give rise to harmful concentrations at the surface of the material where the material is exposed, or in the atmosphere of any space.

G1 Personal Hygiene

G1.3.2

Sanitary fixtures shall be located, constructed and installed to:

- a. facilitate *sanitation*,
- b. avoid risk of food contamination,
- c. avoid harbouring dirt or germs,
- d. provide appropriate privacy,
- e. avoid affecting occupants of adjacent spaces from the presence of unpleasant odours, accumulation of offensive matter, or other source of annoyance,
- f. allow effective cleaning,
- g. discharge to a plumbing and drainage system as required by Clause G13 Foul water when water-borne disposal is used, and
- h. provide a healthy safe disposal system when non-water-borne disposal is used.

G12 Water Supplies

G12.3.5

Sanitary fixtures and *sanitary appliances* must be provided with hot water when intended to be used for

- a. utensil washing; and
- b. personal washing, showering, or bathing.
